Gazing Into the Eternal Belsebuub,2016-12-10 A clear and easy-to-understand look at some of the most profound questions we face, such as what happens when we die, is it possible to have the divine within, what are the causes of suffering, and how can spiritual realities be personally explored-with a powerful message about the potential each of us has to discover the purpose of existence.

The Path of the Spiritual Sun Belsebuub,2018-07-05 Exploring the Mysteries of the Ancient Religion of the Sun In the cycles of the sun and stars, in the movements of the earth and the cosmos, the message of a journey to enlightenment is written. Many thousands of years ago, ancient seers understood this--revering the sun as the highest symbol of divine consciousness, and its light the spiritual source of creation. Its major stages at the solstices and equinoxes became the dominant alignment of sacred sites all over the world, as well as central events in the lives of many spiritual figures. Today, these ancient remains can still be decoded to reveal their message of spiritual enlightenment. The roots of this knowledge trace to a distant time before a global cataclysm destroyed a prior civilization. After this disaster, mysterious wisdom-bringers are recorded as traveling the world on a divine mission to establish this cosmic knowledge anew and initiate the spiritual beginnings of our current human age. They oversaw the building of some of the most enigmatic sacred sites on the planet, and gave rise to a civilization of the religion of the sun that extended across much of the earth. However, over time, strife and persecution took its toll, and after a while it was lost--left in scattered fragments that echo a bygone era of great spiritual knowledge. *The Path of the Spiritual Sun* aims to restore this lost knowledge--exploring the sites, symbols, and sacred texts connected to the ancient spirituality of the sun--and provide celebrations and ceremonies to re-enliven its transformative practice once more. About the author Belsebuub is the author of a number of books on spirituality, out-of-body experiences, dreams, self-discovery, and esoteric knowledge. He has appeared on radio and television programs internationally, and writes from decades of spiritual and mystical experience, while his wife Lara Atwood contributes with the research into history, cosmology, ancient sites, and sacred texts.

Throughout history, seekers of spiritual wisdom have traveled beyond the body into other dimensions to explore a wider reality. Drawing on decades of out-of-body experiences, Belsebuub explains how someone can use astral travel to seek out spiritual knowledge today. The Astral Codex is based on the popular A Course in Astral Travel and Dreams by Belsebuub-a course created in 2001 that was studied online and in-person, and taken by tens of thousands of people worldwide. 67% of people surveyed who took the course reported having an out-of-body experience as a result of it. The Astral Codex includes sections with detailed Q&As from the course. Find out what lucid dreaming and astral projection is. Learn about the multi-dimensional nature of reality. Learn about what the astral plane is and how to travel there. Discover what dreams mean and how to remember them. Learn how to explore destinations in the astral plane. Discover how to become successful at astral projection. Overcome common obstacles to conscious astral travel. Find out how the mind and emotions affects our ability to perceive other dimensions. Learn about how we leave our body every night with sleep. Discover how dreams and the astral plane are connected. Learn about the different ways someone can have an out-of-body experience (OBE). Discover the stages and sensations of having an OBE. Learn exercises to help train the mind to stay focused on astral techniques. Myth and Meaning in Early Taoism N. J. Girardot,1988 Myth and Meaning in Early Daoism examines some of the earliest texts associated with the Daoist tradition (primarily the Daode jing, Zhuangzi, and Huainanzi) from the outlook of the comparative history of religions and finds a kind of thematic and soteriological unity rooted in the mythological symbolism of hundun, the primal chaos being and principle that is foundational for the philosophy and practice of the Dao as creatio continua in cosmic, social, and individual life. Dedicated to the proposition that ancient Chinese texts and traditions are often best understood from a broad interdisciplinary and interpretive perspective, this work when it was written challenged many prevailing conceptions of the Daode jing and Zhuangzi as primarily philosophical texts without any religious significance or affinity with the later sectarian traditions. While controversial and at times playfully provocative, the methodology and findings of this book are still important for the ongoing scholarship about Daoism in China and the world.

Eden in the East Stephen Oppenheimer,1998 This book completely changes the established and conventional view of prehistory by relocating the Lost Eden—the world's first civilisation—to Southeast Asia. At the end of the Ice Age, Southeast Asia formed a continent twice the size of India, which included Indochina, Malaysia, Indonesia, and Borneo. In Eden in the East, Stephen Oppenheimer puts forward the astonishing argument that here in southeast Asia—rather than in Mesopotamia where it is usually placed—was the lost civilization that fertilized the Great cultures of the Middle East 6,000 years ago. He produces evidence from ethnography, archaeology, oceanography, creation stories, myths, linguistics, and DNA analysis to argue that this founding civilization was destroyed by a catastrophic flood, caused by a rapid rise in the sea level at the end of the last ice age.
